

Survey Report

On

34 LEITH WALK, WICK, KW1 4HS

Customer: ALLISON ELIZABETH BUDGE

Customer address: 34 LEITH WALK, WICK, KW1 4HS

Date of inspection: 31 August 2018

Prepared by: David R Sutherland BSc (Hons), Dip Comp, MSc, MCIAT, MCIOB, MRICS

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report is transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.¹

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered

Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

¹ Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- The Seller:
- Any person(s) noting an interest in purchasing the Property from the Seller;
- Any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- The Purchaser; and
- The professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the

Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.5 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid.

Additional fees will be charged for subsequent inspections and Reports

1.6 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.7 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.8 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Market Value" is The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion
- The "Property" is the property which forms the subject of the Report;
- The "Purchaser" is the person (or persons) who enter into a contract to buy the Property from the Seller;

- A "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- The "Seller" is/are the proprietor(s) of the Property;
- The "Surveyor" is the author of the Report on the Property; and
- The "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

PART 2 - DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 1. Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2. Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
- 3. Category 1: No immediate action or repair is needed.

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors. 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- ¹ *There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
 - ¹ *There are no particularly troublesome or unusual legal restrictions:
- ¹ *There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

and/or in the physical condition of the Property

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees). Sellers or prospective Purchasers may consider it prudent to instruct a re-inspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market

1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without the need to move any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right are taken facing the front of the property.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. were not inspected or reported on.

Description

Two storey end-terraced house

Accommodation

GROUND FLOOR: Hall, Living Room, Kitchen,

Bathroom.

FIRST FLOOR: Landing, 3 Bedrooms.

Gross internal area (m²)

80m²

Neighbourhood and location

The subjects are located on the in Leith Walk, Wick. The street contains other properties of a similar age and is a mixture of local authority houses and owner occupiers.

Age

1950

Weather

Bright, Dry, light wind

Chimney stacks

Visually inspected from ground level

Roofing including roof space

Slate sloping roofs were visually inspected from ground level. Roof space was visually inspected

from the attic.

Rainwater fittings

Fittings visually inspected from ground level.

Main walls

Cavity block wall internally dry lined and cavity insulated Visually inspected. Foundations and concealed parts were not exposed or inspected.

Windows, external doors and joinery

UPVC double glazed windows and doors. Internal and external doors were opened and closed where available.

Random windows were inspected.

Doors and windows were not forced open.

External decorations

Visually inspected.

Conservatories / porches

N/a

Communal areas

N/a

Garages and permanent outbuildings

Block built garage visually inspected externally only.

Outside areas and boundaries

Visually inspected.

Ceilings

Visually inspected from floor level.

Internal walls

Visually inspected from floor level.

Floors including sub floors

Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted. Sub-floor areas were not inspected.

Internal joinery and kitchen

Built-in cupboards were looked into but no stored items were moved.

fittings

Kitchen units were visually inspected excluding appliances.

Chimney breasts and fireplaces

Visually Inspected

Internal decorations

Visually inspected.

Cellars

N/a

Electricity

Accessible parts of the wiring were visually inspected without removing fittings. No tests what so ever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.

Gas

N/a.

Water, plumbing and bathroom fittings

Visual inspection of the accessible pipe-work, water tanks, cylinders and fittings without removing any insulation.

No tests what so ever were carried out to the system or appliances.

Heating and hot water

Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.

No tests whatsoever were carried out to the system or appliances.

Drainage

Drainage covers etc were not lifted.

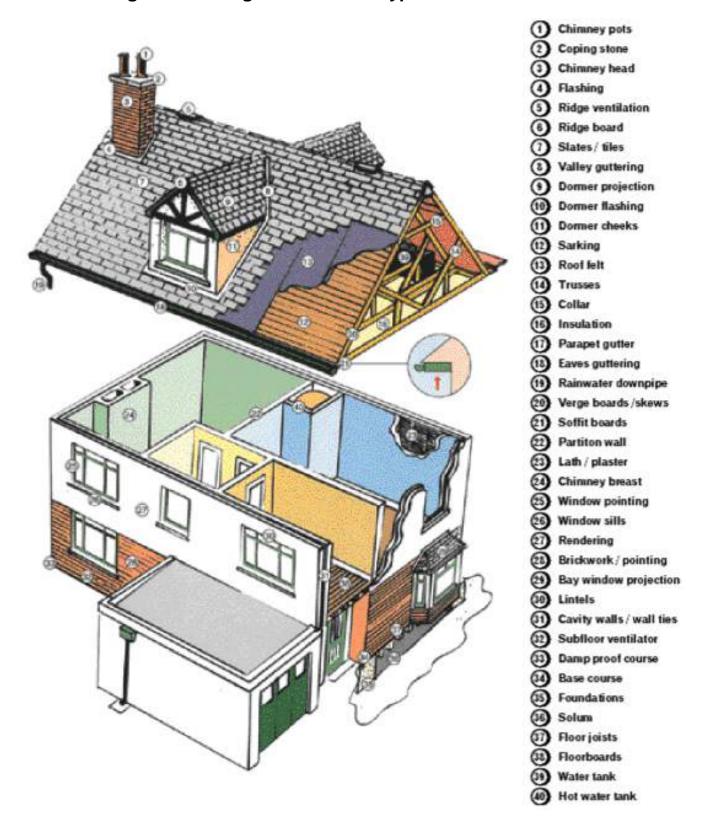

Neither drains nor drainage systems were tested.

Fire, smoke and burglar alarms

Smoke detectors and fitted but not tested. N/a

Any additional limits to inspection:

Sectional diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these terms.

2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of three categories.

Structural movement		
Repair category	1	
Notes:	No evidence of structural movement	
Damp	ness, rot and infestation	
Repair category	1	
Notes:	No problems noted	
Chimr	ney stacks	
Repair category:	1	
Notes:	Block built chimney not in use.	
Roofii	ng including roof space	
Repair category:	1	
Notes:	Natural slate roof with sarking. No problems noted. Roof space insulated with 250mm glass wool.	
Rainw	ater fittings	
Repair category:	1	
Notes:	Check guttering for debris and unobstructed action of all traps at ground level this should be done annually. UPVC gutters with CI downpipes.	
Main v		
Repair category:	1	
Notes:	Cavity block walls which have had cavity insulation. Walls are rough cast finish. No problems noted.	
Windo	ows, external doors and joinery	
Repair category:	1	
Notes:	Double glazed UPVC doors and windows fitted through out No problems noted. Windows fitted in 2012	
Extern	nal decorations	
Repair category:	1	

Notes:	No problems noted			
	ervatories / porches			
Conservatories / porches				
Repair category:	N/a			
Notes:				
Comm	nunal areas			
Repair category:	N/a			
Notes:				
Garag	es and permanent outbuildings			
Repair category:	1			
Notes:	Block built garage with profiled steel roof and roller door. No problems identified. Garage accessed by private drive from Leith Walk.			
Outsid	de areas and boundaries			
Repair category:	1			
Notes:	Private garden is fully walled and fenced. Oil storage tank located in rear garden.			
Ceiling	gs			
Repair category:	1			
Notes:	Plasterboard ceilings. No problems identified.			
Intern	al walls			
Repair category:	1			
Notes:	Plasterboard dry lining.No problems identified.			
Floors	s including sub-floors			
Repair category:	1			
Notes:	Timber suspended floor.			
Internal joinery and kitchen fittings				
Repair category:	1			
Notes: Modern kitchen fitted.				
Chimr	ney breasts and fireplaces			
Repair category:	1			
Notes:	Fireplace removed. Focal point fire fitted.			

Interna	al decorations
Repair category:	1
Notes:	No problems identified
Cellars	S
Repair category:	N/a
Notes:	
Electri	city
Repair category:	1
Notes:	Electrics should be checked by a NICEIC registered engineer.
Gas	
Repair category:	N/a
Notes:	
Water,	plumbing and bathroom fittings
Repair category:	1
Notes:	Shower fitted over bath. No problems identified
Heatin	g and hot water
Repair category:	1
Notes:	Camray 5 combi oil boiler located in cupboard beside kitchen, should be serviced by a OFTEC registered heating engineer with suitable documentation provided.
Draina	ige
Repair category:	1
Notes:	Drainage to main sewers

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

Structural movement	1	Repair Categories
Dampness, rot and infestation	1	_ Kepan Categories
	-	Category 3:
Chimney stacks	1	Urgent Repairs or
Roofing including roof space	1	replacement are needed now.
Rainwater fittings	1	Failure to deal with
Main walls	1	them may cause
Windows, external doors and joinery	1	problems to other
External decorations	1	parts of the
Conservatories / porches	N/a	property or cause a
Communal areas	N/a	safety hazard. Estimates for
Garages and permanent outbuildings	1	repairs or
Outside areas and boundaries	1	replacement are
Ceilings	1	needed now.
Internal walls	1	Category 2:
Floors including sub-floors	1	Repairs or
Internal joinery and kitchen fittings	1	replacement
Chimney breasts and fireplaces	1	requiring future
Internal decorations	1	attention, but
Cellars	N/a	estimates are still advised.
Electricity	1	davisca.
Gas	N/a	Category 1:
Water, plumbing and bathroom	1	No immediate
fittings		action or repair is
Heating and hot water	1	needed.
Drainage	1	

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. ACCESSIBILITY INFORMATION

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

<u>Unrestricted parking within 25 metres:</u> For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes: Parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Ground
2. Are there three steps or fewer to a main entrance door of the property?	Yes
3. Is there a lift to the main entrance door of the property?	N/a
4. Are all door openings greater than 750mm?	Yes
5. Is there a toilet on the same level as the living room and kitchen?	Yes
6. Is there a toilet on the same level as a bedroom?	No
7. Are all rooms on the same level with no internal steps or stairs?	No
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes

4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

Matters for a solicitor or licensed conveyance

It is assumed that Planning Permissions and Building Warrant completion certificates are available for the garage if required.

Estimated re-instatement cost for insurance purposes

£140,000 (One Hundred and Forty Thousand Pounds)

Valuation and market comments

£82,000 (Eighty Two Thousand Pounds)

Report author: David R Sutherland

NossTech Property Services

Address: 15 Lindsay Drive

Wick, KW1 4PG

Signed:

Date of report: 6 September 2018

Energy Performance Certificate (EPC)

Dwellings

Scotland

34 LEITH WALK, WICK, KW1 4HS

Dwelling type: End-terrace house
Date of assessment: 31 August 2018
Date of certificate: 06 September 2018

Total floor area: 80 m²

Primary Energy Indicator: 258 kWh/m²/year

Reference number: 0190-2009-7180-9978-3931 **Type of assessment:** RdSAP, existing dwelling

Approved Organisation: Sterling

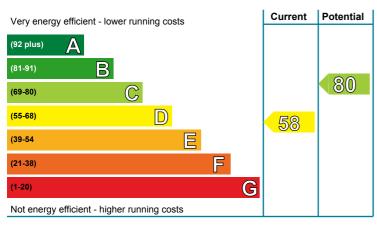

Main heating and fuel: Boiler and radiators, oil

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*	£2,235	See your recommendations
Over 3 years you could save*	£531	report for more information

^{*} based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

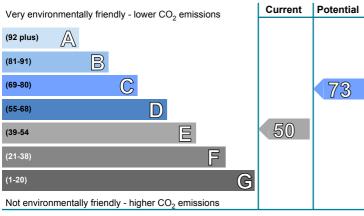

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band D (58)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO_2) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band E (50)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years	Available with Green Deal
1 Party wall insulation	£300 - £600	£72.00	②
2 Floor insulation (suspended floor)	£800 - £1,200	£201.00	②
3 Condensing boiler	£2,200 - £3,000	£174.00	②

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

The Green Deal may allow you to make your home warmer and cheaper to run at no up-front capital cost. See your recommendations report for more details.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Cavity wall, filled cavity	★★★☆☆	★★★☆☆
Roof	Pitched, 250 mm loft insulation	★★★★☆	★★★★☆
Floor	Suspended, no insulation (assumed)	_	_
Windows	Fully double glazed	★★★★☆	★★★★☆
Main heating	Boiler and radiators, oil	★★★☆☆	★★★☆☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	None	_	_
Hot water	From main system	★★★☆☆	★★★☆☆
Lighting	Low energy lighting in 80% of fixed outlets	****	****

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 67 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 5.4 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 2.3 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£1,464 over 3 years	£1,110 over 3 years	
Hot water	£564 over 3 years	£387 over 3 years	You could
Lighting	£207 over 3 years	£207 over 3 years	save £531
Total	£2,235	£1,704	over 3 years

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

December ded moses was		Indicative cost	Typical saving	Rating after	Green	
Re	commended measures	indicative cost	per year	Energy	Environment	Deal
1	Party wall insulation	£300 - £600	£24	D 60	E 52	
2	Floor insulation (suspended floor)	£800 - £1,200	£67	D 64	D 56	
3	Replace boiler with new condensing boiler	£2,200 - £3,000	£58	D 67	D 60	
4	Solar water heating	£4,000 - £6,000	£28	C 69	D 63	
5	Solar photovoltaic panels, 2.5 kWp	£5,000 - £8,000	£277	C 80	C 73	

Measures which have a green deal tick are likely to be eligible for Green Deal finance plans based on indicative costs. Subsidy also may be available for some measures, such as solid wall insulation. Additional support may also be available for certain households in receipt of means tested benefits. Measures which have an orange tick may need additional finance. To find out how you could use Green Deal finance to improve your property, visit www.greenerscotland.org or contact the Home Energy Scotland hotline on 0808 808 2282.

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

This section offers additional information and advice on the recommended improvement measures for your home

1 Party wall insulation

Party wall insulation, to fill the cavity of a wall separating a dwelling from another building with an insulating material, reduces heat loss; this will improve levels of thermal comfort, reduce energy use and lower fuel bills. The insulation material is pumped into the gap through small holes that are drilled into the party wall, and the holes are made good afterwards. As specialist machinery is used to fill the cavity, a professional installation company should carry out this work, and they should carry out a thorough survey before commencing work to ensure that this type of insulation is suitable for this home and its exposure. They should also provide a guarantee for the work. This work has to comply with building regulations, including that installation will not adversely affect the performance of the existing wall in respect of noise transmission. Further information about cavity wall insulation and details of local installers can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk).

2 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work so it is best to check with your local authority building standards department.

3 Condensing boiler

A condensing boiler is capable of much higher efficiencies than other types of boiler, meaning it will burn less fuel to heat this property. This improvement is most appropriate when the existing central heating boiler needs repair or replacement, however there may be exceptional circumstances making this impractical. Condensing boilers need a drain for the condensate which limits their location; remember this when considering remodelling the room containing the existing boiler even if the latter is to be retained for the time being (for example a kitchen makeover). Building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority building standards department and seek advice from a qualified heating engineer.

4 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

5 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

Your home's heat demand

You could receive Renewable Heat Incentive (RHI) payments and help reduce carbon emissions by replacing your existing heating system with one that generates renewable heat and, where appropriate, having your loft insulated and cavity walls filled. The estimated energy required for space and water heating will form the basis of the payments. For more information go to www.energysavingtrust.org.uk/scotland/rhi.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	9,933	N/A	N/A	N/A
Water heating (kWh per year)	3,934			

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Sterling (www.Sterlingaccreditation.com), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name: David Sutherland Assessor membership number: STER400100

Phone number: 07815505564
Email address: davidsutherland@fastmail.co.uk

Related party disclosure:

No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Opportunity to benefit from a Green Deal on this property

Under a Green Deal, the cost of the improvements is repaid over time via a credit agreement. Repayments are made through a charge added to the electricity bill for the property.

To see which improvements are recommended for this property, please turn to page 3. You can choose which improvements you want to install and ask for a quote from an authorised Green Deal provider. They will organise installation by an authorised Green Deal installer. If you move home, the responsibility for paying the Green Deal charge under the credit agreement passes to the new electricity bill payer.

For householders in receipt of income-related benefits, additional help may be available.

To find out more, visit www.greenerscotland.org or call 0808 808 2282.

Authorised home energy assessment

Finance at no upfront cost

Choose from authorised installers May be paid from savings in energy bills

Repayments stay with the electricity bill payer

Property Questionnaire

PROPERTY ADDRESS:	34 LEITH WALK WICK KW1 4HS
SELLER(S):	ALLISON ELIZABETH BUDGE
COMPLETION DATE OF PROPERTY QUESTIONNAIRE:	04/09/2018

PROPERTY QUESTIONNAIRE

NOTE FOR SELLERS

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the Date of Entry for the sale of your house, tell your solicitor or estate agent immediately.

PROPERTY QUESTIONNAIRE Information to be given to prospective buyer(s)

1.	Length of ownership
	How long have you owned the property? Dec 2004
2.	Council Tax
	Which Council Tax band is your property in?
	A B C D E F G H
3.	Parking
	What are the arrangements for parking at your property?
	(Please indicate all that apply)
	Garage X
	Allocated parking space
	 Driveway X
	Shared parking
	On street X
	Resident permit
	Metered parking
	Other (please specify):

4.	Conservation Area	
	Is your property in a designated Conservation Area (i.e. an area of special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance)?	Yes/ <mark>No</mark> / Don't know
5.	Listed Buildings	
	Is your property a Listed Building, or contained within one (i.e. a building recognised and approved as being of special architectural or historical interest)?	Yes/ <mark>No</mark>
6.	Alterations / additions / extensions	
a.	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)? If you have answered yes, please describe the changes which you have made:	Yes/No
	ADDITION OF GARAGE TO REAR OF THE PROPERTY	
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?	<mark>Yes</mark> /No

	If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking. If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent can arrange to obtain them.				
b.	Have you had replacement windows, doors, patio doors or double glazing installed in your property? If you have answered yes, please answer the three questions below:	<mark>Yes</mark> /No			
	questions below.				
	(i) Were the replacements the same shape and type as the ones you replaced?	<mark>Yes</mark> /No			
	(ii) Did this work involve any changes to the window or door openings?	Yes <mark>/No</mark>			
	(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):				
	ALL WINDOWS AND DOORS REPLACED 2012				
	Please give any guarantees which you received for this work to your solicitor or estate agent.				

7.	Central heating	
a.	Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property – the main living room, the bedroom(s), the hall and the bathroom). If you have answered yes/partial – what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air.) OIL CENTRAL HEATING If you have answered yes, please answer the 3 questions below:	Yes/No/ Partial
b.	When was your central heating system or partial central heating system installed? 2007	
c.	Do you have a maintenance contract for the central heating system? If you have answered yes, please give details of the company with which you have a maintenance agreement:	Yes/ <mark>No</mark>
d.	When was your maintenance agreement last renewed? (Please provide the month and year).	

8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	Yes/ <mark>No</mark>
9.	Issues that may have affected your property	
a.	Has there been any storm, flood, fire or other structural damage to your property while you have owned it?	Yes/ <mark>No</mark>
	If you have answered yes, is the damage the subject of any outstanding insurance claim?	Yes/No
b.	Are you aware of the existence of asbestos in your property?	Yes/No
	If you have answered yes, please give details:	

10. Services

a. Please tick which services are connected to your property and give details of the supplier:

Services	Connected	Supplier
Gas / liquid petroleum gas		
Water mains / private water supply	X	SCOTTISH WATER
Electricity	X	SSE
Mains drainage	Х	SCOTTISH WATER
Telephone	X	SKY
Cable TV / satellite	X	SKY

	Broadband	X	SKY		
b.	Is there a septic tank If you have answered questions below:	•		0	Yes/ <mark>No</mark>
C.	Do you have approfrom your septic tank	•	sents for the o	discharge	Yes/No/ Don't Know
d.	Do you have a mai tank? If you have answere company with which	<u>ed yes,</u> pl	ease give detai	ls of the	
11.	Responsibilities for S	Shared or C	common Areas		
a.	Are you aware of any cost of anything used shared drive, private	d jointly, so road, bou	uch as the repair ndary, or garden	r of a	Yes/ <mark>No</mark> / Don't Know
b.	Is there a responsibility maintenance of the recommon areas? If you have answered	oof, comm	on stairwell or o		Yes/ <mark>No/</mark> Not applicable

C.	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?	Yes/ <mark>No</mark>
d.	Do you have the right to walk over any of your neighbours' property - for example to put out your rubbish bin or to maintain your boundaries? If you have answered yes, please give details:	Yes/ <mark>No</mark>
e.	As far as you are aware, do any of your neighbours	Yes/ <mark>No</mark>
	have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries?	
	If you have answered yes, please give details:	
f.	As far as you are aware, is there a Public Right of Way across any part of your property? (A Public Right of Way is a way over which the public has a right to pass, whether or not the land is privately-owned.)	Yes/ <mark>No</mark>
	If you have answered yes, please give details:	
12.	Charges associated with your property	
a.	Is there a factor or property manager for your property?	Yes/ <mark>No</mark>
	If you have answered yes, please provide the name and address and give details of any deposit held and approximate charges:	

b.	Is there a common buildings insurance policy?	Yes/ <mark>No</mark> / Don't know
	If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?	Yes/No/ Don't know
C.	Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, e.g. to a Residents' Association, or maintenance or stair fund.	
13.	Specialist Works	
a.	As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property? If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property	Yes/ <mark>No</mark>

	If you have answered yes	, plea	ise giv	e details			
c.	If you have answered yes any guarantees relating to the life you have answered yes needed by the purchaser solicitor as soon as poss not have them yourself placed these documents and you arrange for them to be obtained and description of the life you have a description of the life you have answered yes needed by the purchaser soon as possible you have the life you have a description of the life you have answered yes needed yes needed you have answered yes needed you have answered yes needed you have answered yes any guarantees relating to the life you have answered yes needed yes needed you have answered yes needed yes needed by the purchaser solicitor as soon as possible years.	this and s ible follease ur sol	work'se guashould or che write icitor d. Yo	rantees v l be giver cking. If below wh or estate u will also	vill be to your you do no has agent will o need to	Yes	s/No
	may be shown in the orig Guarantees are held by:						
14.	Guarantees				<u> </u>		
a.	Are there any guarantees following:	or w	arrant	ies for an	y of the		
(i)	Electrical work	No	Yes	Don't Know	With title deeds	е	Lost
(ii)	Roofing	No	Yes	Don't Know	With title deeds	е	Lost
(iii)	Central heating	<mark>N</mark> o	Yes	Don't know	With title deeds	е	Lost
(iv)	NHBC	No	Yes	Don't know	With title deeds	е	Lost
(v)	Damp course	No	Yes	Don't know	With title deeds	е	Lost

(vi)	Any other work or installations? (for example, cavity wall insulation, underpinning, indemnity policy)	No	Yes	Don't know	With titl deeds	_	Lost
b.	If you have answered 'yes of the work or installation						
C.	Are there any outstanding guarantees listed above? If you have answered yes	-				Ye	es/ <mark>No</mark>
15.	Boundaries						
	So far as you are aware property been moved in to the lift you have answered yes	he las	st 10 y	ears?			es <mark>/No</mark> /)on't (now

16.	Notices that affect your property	
	In the past 3 years have you ever received a notice:	
a.	advising that the owner of a neighbouring property has made a planning application?	Yes/ <mark>No</mark> / Don't know
b.	that affects your property in some other way?	Yes/ <mark>No</mark> / Don't know
C.	that requires you to do any maintenance, repairs or improvements to your property?	Yes/ <mark>No</mark> / Don't know
	If you have answered yes to any of a-c above, please give the notices to your solicitor or estate agent, including any notices which arrive at any time before the date of entry of the purchase of your property.	

Declaration by the seller(s)/or other authorised body or person(s):

I / We confirm that the information in this form is true and correct to the best of my/our knowledge and belief.
